THE NEW JEFFERSON HOSPITAL  
OPENED JUNE, 1907

REPORT  
OF THE  
JEFFERSON HOSPITAL

For the year ending May 31, 1919  
Forty-second Year

GENERAL HOSPITAL  
Cor. 10th and Sansom Streets

MATERNITY HOSPITAL  
224-226 S. Seventh Street

MATERNITY DISPENSARY  
2545 Wharton Street

DEPARTMENT FOR DISEASES OF THE CHEST  
236-238 Pine Street

IVYCROFT FARM  
Convalescent Home for Men  
Wayne, Pa.

PHILADELPHIA

1919

THE JEFFERSON HOSPITAL receives the injured and sick irrespective of race, nationality or religion.

Patients desiring admission should apply at the Hospital between 8 A. M. and 5 P. M., or to any member of the Medical Staff.

Cases of recent accident occurring in Pennsylvania are admitted at any hour of the day or night.

The insane, and patients suffering from contagious diseases or alcoholism are not received; except when temporary relief is possible, incurable cases are not admitted.

The Maternity Hospital is located at 224-226 West Washington Square, with a dispensary at 2545 Wharton Street. Women are received and cared for during confinement, or attended at their homes.

The Department for Diseases of the Chest is located at 236 and 238 Pine Street. Patients with advanced pulmonary tuberculosis only are admitted to the wards.

Ivycroft Farm, the Convalescent Home for Men, is located near Wayne, Pa. Admissions are made through the Social Service Department of the Hospital.

# The Year's Work

## A SUMMARY

Patients admitted, 7,797

Patients treated, 8,095

Surgical operations, 4,728

The Maternity has administered to 3,618 women ;  
1734 babies

The Department for Diseases of the Chest has admitted 228  
patients to wards and 2,708 visits were made to the Dispensary

Dispensaries, 26,138 patients ; 94,863 visits

Prescriptions filled in Dispensary Drug Store, 28,111

In all public departments, 47,620 patients

Average patients per day in all public departments, 616.6

## **The Jefferson Hospital**

This report records the activities of the forty-second year of the Hospital's existence.

A summary of the Statistical Report of the year shows that 8,095 patients were treated in the wards and private rooms of the Hospital. These 8,095 patients received 122,624 patient days of treatment.

In the wards 73.3 per cent. of the patients were treated free, and 26.7 per cent. paid part of the cost of their maintenance.

The out-patient departments of the Hospital admitted 26,138 patients, who made 94,863 visits for treatment.

The emergency ward treated 16,718 patients. The total number of new patients treated in all departments was 50,703.

The daily average number of patients treated was 696.

The total expenses for the year were \$415,674.34, an increase of \$34,597.01 as compared with the expenses of the previous year.

For a more detailed account of the Statistical and Financial Report see page 53.

### **Gifts Received During the Year**

The Medical Wards of the Hospital were one of the beneficiaries of the Annual Charity Ball, and most grateful acknowledgment and expression of appreciation is made for \$2,844.00 received as the appropriation to the Jefferson Hospital.

The Southeastern Chapter of the American Red Cross at frequent intervals most generously supplied an abundance of surgical dressings and supplies, and hospital garments, which were, indeed, most welcome, coming at a time when the surgical supplies were almost impossible to obtain at any price, due to requisition by the Government and the shortage of hospital labor.

Ivycroft Farm, the Convalescent Home of the Hospital, which has so successfully been operated by the Social Service Committee of the Women's Auxiliary for the past two years, has been deeded as a gift to the Jefferson Hospital, free of incumbrance. This farm has two large buildings upon sixteen and one-half acres of ground, and is located one mile north of Wayne, Pennsylvania.

In order to extend the usefulness of this charity, which provides convalescent care for men, additional endowment is needed, and the second building should be altered and equipped so that additional space may be provided.

The work of this branch of the Hospital is fully described on page 42.

Grateful acknowledgment is hereby made to all who have donated materials and supplies, and personal service to the Hospital during the past year. For list of donations see page 43.

U. S. Army Base Hospital No. 38, organized under the direction of the Jefferson Medical College and Hospital, sailed for France in June, 1918, and returned April, 1919. The Hospital, organized as a 1,000-bed organization, rapidly increased its capacity to 2,500 beds after arriving at its station, Nantes, France. The organization has received the highest praise from its commanding officers for the excellent work accomplished, very often under the greatest difficulties. Jefferson takes the greatest pride in the efficient organization that it had the privilege of sending to France, and the character of the service rendered.

While in France two of the personnel died of pneumonia. Mrs. Adeline Pepper Gibson gave up her life in line of duty at the Hospital Station at Nantes, France, January 10, 1919. Through Mrs. Gibson's munificent gift, the organization of Base Hospital No. 38 was made possible. During her connection with the Base Hospital she was most devoted to duty, beloved by all, ever ready to help at all times without regard to her personal wishes or safety. In her death the Hospital lost a very sincere friend and comrade. The Hospital Com-

ONE OF THE MEDICAL WARDS

mittee of the Board of Trustees erected a tablet in the Hospital corridor in memory of her life and service.

Captain Samuel Mauney, a Medical Officer of the personnel, suffered an attack of pneumonia which resulted in the most untimely end of a brilliant career, death claiming him in October, 1918. Dr. Mauney's devotion to the patients was of the highest order, and he was stricken with pneumonia while on active duty. His death was most deeply felt by every one connected with the Hospital.

### **Baring the Past Year**

This Institution suffered most severely from the ravages of the influenza epidemic. When handicapped by shortage of doctors and nurses, members of the Women's Auxiliary of the Jefferson Hospital and others who had received intensive training as nurses volunteered for long hours of duty in the Hospital. Everyone in the Hospital deserves especial mention for his or her devotion to duty during this epidemic, and it is with profound sorrow that we report the death of five of our pupil nurses among the number who suffered from the influenza, giving their lives in the midst of promising and useful careers. They were martyrs in the true sense of the word.

A small ward in the Hospital was set aside for enlisted sailors. Here the convalescence of the patients was hastened by the splendid and efficient care rendered by the workers in the Philadelphia Section of the Navy League of the United States, under the able direction of Mrs. Charles Henry Scott, Chairman. The women of the Navy League, in addition to their duties of nursing, kept this ward bright with flowers, provided dainties and many and varied entertainments.

The Medical Advisory Board, located in the Hospital, appointed by the Governor of Pennsylvania, examined 4,055 young men who were referred for expert medical examination and report by the physicians of local draft boards. This Advisory Board was kept extremely busy, having at their command every available facility of the Hospital to aid in establishing the standard of health of applicants. More men

were referred to this Medical Advisory Board than any other board located in Philadelphia or vicinity.

### **The Department of Radium Therapy**

This department, founded through the generosity of Mrs. Lucy B. Henderson, has been most active during the past year. 871 treatments, amounting to 334,284 milligram hours, have been given, and 87 new patients and 25 old patients have been examined and treated.

Of these patients, 59 were treated for malignant diseases, 34 for non-malignant tumors, 3 for spring catarrh, 7 for menorrhagia, 3 for uterine fibroids, and 5 for enlarged spleen.

The Radium, X-Ray, Dental, Electrocardiographic Department and Hospital Laboratories are continuing their excellent work and are adding daily to the usefulness of the work of the Hospital and Out-Patient Medical Staffs.

### **Private Floor Service**

Patients desiring the privacy or luxury of a private service may obtain in the Jefferson Hospital a room with or without bath, single or ensuite, and so arranged that visiting relatives or friends may occupy apartments immediately adjacent to the patient.

Electro-therapeutic and hydro-therapeutic treatments, private reception rooms and parlor, roof garden, private operating room, sun parlor, diet kitchen and facilities for private care of maternity cases are also available.

Special nurses are supplied at reasonable rates, the Hospital making no extra charge except for board. The Hospital is equipped to care for eighty-six private and semi-private patients.

The private floor service has been more in demand during the past year than at any time in the history of the Institution. The question of affording a service on the plan "of a large hotel for the sick" is no longer an experiment, as has been proven by the demand for this kind of service.

The number of private room patients admitted during the past year was 3,083.

Each succeeding year will find the public making an increased demand for private rooms in hospitals.

### **Provisions for the Professional Care of Patients**

The fifteen departments of the Jefferson Hospital, including the dispensaries, are under the immediate supervision of 23 members of the visiting staff and over 135 assistants.

The Resident Staff comprises 18 physicians, including a Chief Resident Physician. Nursing is supplied by a Directress of the Training School, Assistant Directress, 15 Graduate Nurses and 135 Pupil Nurses.

The Institution maintains two fully equipped pharmacies at the General Hospital and one at the Department for Diseases of the Chest, supervised by two registered managers and three qualified assistants. The magnitude of this service may be appreciated when it is stated that, exclusive of the house and operating room service, 28,211 prescriptions were filled last year.

The Jefferson Hospital maintains two automobile ambulances which respond to calls received from every section of the city and suburbs. Patients coming from a distance are speedily conducted to the Hospital.

### **Department for Diseases of the Chest**

The Department for Diseases of the Chest was acquired in 1913 by the purchase of the buildings formerly occupied by the Henry Phipps Institute and located at 236-238 Pine Street. These buildings were completely renovated and modernized at a cost of approximately \$25,000, and in their present condition afford every facility for the efficient care of patients suffering with diseases of the chest. The new department contains ample space for dispensary treatment of ambulatory cases, while the wards provide forty beds which are devoted to the care of those suffering with advanced pulmonary tuberculosis.

The work of the department deals largely with the general problem of tuberculosis. The need for such a depart-

ment doing this sort of work must be evident when it is recalled that one in every ten persons dies from tuberculosis, and in the State of Pennsylvania alone 9,000 persons die annually from this disease. The incontrovertible fact that the Department for Diseases of the Chest of the Jefferson Hospital is fulfilling a need of the community is evidenced by the long waiting list of patients applying for admission to its wards, which have been filled to capacity since the opening. One of the fundamental methods which authorities agree is necessary if we are to make any headway whatever in the control of the "Great White Plague" is the isolation and segregation of the advanced, indigent and dangerous consumptive.

For this purpose there is a total lack of hospital facilities in the State of Pennsylvania. The Board of Trustees of Jefferson Hospital, always anxious that the Institution should take an active part in matters of public health, and realizing fully that special tuberculosis work meant added financial responsibility—a responsibility all the more weighty in view of the current deficit in its funds—felt that so important a community need should be considered, and proceeded with organization of the department in the hope that the State of Pennsylvania and private benefactors would contribute toward its support.

The work is a charity in its truest meaning, and its scope, like that of the General Hospital, is limited only by the funds available. In addition to the medical care of the patient in the wards and in the dispensary, the home condition is investigated by trained nurses and workers acting under the direction of the Social Service Department. The members of the family not yet victims of the disease are given directions to secure their health. Those exposed to the patient are directed to report to the dispensary for examination to discover incipient cases. When incipient cases are found sanatorium care is arranged for. Arrested cases are taught how to prevent relapses. The abnormalities of environment which predispose toward disease are corrected.

The activities of this department are humanitarian in the

widest sense. During the past year 228 patients were cared for in the wards; 9,200 patient days' treatment were administered, and 2,708 dispensary visits were made by out-patients.

Because of the lack of funds the department was compelled to close the wards during the summer months, however, with a continuance of the Dispensary, and Social Service Department. During the five years in which this department has been in operation 1,414 patients have been cared for in the wards and 4,133 patients in the dispensary.

## **Medical Report of the Maternity Department Jefferson Hospital**

**For the Year Ending May 31st, 1919**

The Maternity Department of the Jefferson Hospital (The Jefferson Maternity) is situated at 224-226 South Seventh Street, near the corner of Locust and Seventh Streets, on West Washington Square. Its telephone is Bell, Walnut 494, and a direct wire connects it with the Jefferson Hospital, Filbert 2510. The Jefferson Hospital ambulance answers its calls. It is open day and night throughout the year. Daily, Sundays excepted, between 12 o'clock, noon, and 1, members of the staff are present to consult with patients. Emergency cases are received at any time. The Out-Patient Department gives service to those who cannot enter the Institution.

The Jefferson Maternity Dispensary is maintained at 2545 Wharton Street (Twenty-sixth and Wharton). Three times weekly from 3 to 4 P. M. physicians are in attendance to give advice to women concerning themselves and their children. Two assistants from the Dispensary Staff sleep at the Dispensary to answer night calls and attend cases in the house of patients.

During the past year 305 mothers were admitted to the Maternity; 1,507 mothers applied for advice and treatment and received pre-natal care. In the Out-Patient service 1,153 patients applied for medical care.

During the past year 83 operations of various sorts were performed.

In the wards of the Maternity during the past year occurred four deaths from the various complications of parturient. All of these patients were critically ill on admission. No fatal illness developed in the Maternity.

Owing to limited space the work of the Institution is greatly hampered. A conservative estimate at the present time would indicate that the Maternity service is doing one-third the work which it would do under suitable accommodations. Especial care is necessary in the cramped quarters to

maintain cleanliness and prevent infection, and these conditions greatly increase the labor of the nursing and attendant staff.

THE WHARTON STREET DISPENSARY. During the past year 653 mothers and 227 children received attention. Complicated cases in this service are sent to the Maternity, and those which can be safely attended at home are retained in the Dispensary service. There were no maternal deaths during the year in this service.

The Dispensary gave practical instruction to 82 medical students during the year.

VISITING NURSES. The Visiting Nurses of the Maternity made 2,031 calls during the year, and the number made by the two Visiting Nurses from the Dispensary and Maternity was 4,382. This work is essentially Social Service, for not only do the Nurses get medicine for the patients, but they distribute clothing and give advice and help in many ways.

SERVICE TO THE NATION. The Maternity Department of the Jefferson Hospital rendered service to the Nation by caring for poor mothers, and by giving accommodation and treatment to the wives of soldiers, sailors, marines, aviators and those working in industrial government service.

It gives practical clinical training to physicians and nurses, and as this improves mortality and morbidity lessen. It co-operates with other institutions to preserve the general health of the population. This is especially marked in its pre-natal work.

EDWARD P. DAVIS,  
*Medical Director.*

Two hundred and forty-eight articles of clothing given away during the year.

Ten soldiers' wives taken care of during the year, free of charge.

## **The Jefferson Maternity Trained Nursery-Maids**

### **Founded 1895**

These maids are graduates of a course of four months' training in the Maternity Department. They are admitted to the course only after a careful examination of their characters, dispositions and physical conditions, and must be not less than eighteen years old.

Their training covers the care of infants of all ages, including older children, and requires neatness, absolute cleanliness and obedience, qualities essential in nursery-maids of a higher order.

#### **Duties of a Nursery Maid**

After a nursery-maid has completed her course of training and has been found thoroughly satisfactory in every respect, and fully competent to take charge of a baby or an older child, she is recommended for a position, on the understanding that she will faithfully perform all her duties and conform to the following regulations:

Among her duties will be: The preparation of the baby's food in accordance with written directions from the attending physician, parent or some other responsible person; the care of the child; the care of the bottles; the washing of the baby's flannels and diapers.

She must wear her uniform, consisting of a wash dress, cap, collar, and apron with strings, bib and straps. The color and material of her dress may be that of a Jefferson trained nursery-maid (blue-checked gingham) or white, at the discretion of her future mistress. The uniform is adopted in order to dignify the position, and to show that the maid has completed a course of recognized training.

Absolute neatness and cleanliness of person is required. She must understand plain sewing and mending.

The nursery-maid shall not leave a place without giving two weeks' notice and can require the same for herself from her mistress.

The nursery-maid, although receiving her training at an authorized training school for nursery-maids, must not forget

that she is a maid, though of high class, and must conform to the customs and rules for the maids in the household in which she may be placed, such as eating in the kitchen, taking her day out, etc.

The wages of the nursery-maid shall be thirty-five dollars (\$35.00) a month, for the first year after leaving the Maternity.

Applications for nursery-maids should be made to Miss Martin, Head Nurse of the Maternity Department of the Jefferson Hospital, 224-226 South Seventh Street. If the maid proves satisfactory, a fee of not less than five dollars (\$5.00) is, at the end of one month, payable to the chairman of the Committee. This fee is for the benefit of the Maternity Department. No fee is charged the nursery-maids.

During 1918 there were 106 applications for nursery-maids, and 6 positions were filled. Sixty young women applied for training, of whom three were accepted, and took their training. One diploma was given and ten of the older graduates returned for new positions.

It is the custom of the Committee to give diplomas only to nursery-maids who prove their fitness by one year's successful work in private families after leaving the Institution.

## Seventh Annual Report of the Social Service Department

### Department Staff

HELEN L. HILLARD, R.N.,

Director of Social Work.

HELEN S. GIEBEL, R.N.,

Resigned November 15, 1918.

LOUISE PASQUAY, R.N.,

Resigned April 30, 1919.

MARGARET KANE, R.N.,

Graduate Pennsylvania School for  
Social Service.

Medical Clinic and Wards.

DAISY M. LINDAUER,

Surgical Clinic and Wards.

MABEL MOYER,

Admission Desk.

ALICE CONKLING,

Extra Clerical Worker during  
July and August.

SUE G. MURPHY, R.N.,

Resigned March 15, 1919.

BESSIE H. WRIGHT, R.N.,

Children's Clinic and Wards.

ESTELLE WASSON, B.A.,

Graduate Lucy Webb School for  
Social Work, Washington, D. C.

Gynecological Clinic and Ward.

MABEL BENEZET,

Secretary.

### DEPARTMENT FOR DISEASES OF THE CHEST

ELEANOR F. FINKEN,

Worker in Charge.

BERTHA KAUFMAN,

Office Secretary, on half time.

MILLICENT H. MAULL,

JANE C. TURNER, R.N.,

On half time.

The past year has again been marked by abnormal conditions. Beginning our year of work with a staff depleted by loss of workers who had gone into war service and with much of the Hospital organization more or less disorganized through the same reason, we were soon confronted with the problems connected with the influenza epidemic. The work of the staff was seriously affected from the fact that more than half our number were either ill themselves or obliged to be absent on account of very serious illness in their homes. For more than two months we were handicapped by a diminished number, while the opportunities for our service were greatly increased by the conditions incident to and following the epidemic.

Among the many problems which were presented to us, the situation which was at the same time the most pitiable and most difficult of solution was that found where mothers of

families had died, leaving little children to be cared for. In many cases it was impossible to meet the need satisfactorily either by placing the children in institutions or finding housekeepers when the father was anxious and financially able to keep the children together. All agencies for dealing with the situation were burdened beyond the capacity of their resources.

All through the year we have had evidence of the serious results of the epidemic, having constantly admitted to the Hospital men, women and children suffering from conditions resulting from the influenza. Many men, convalescent from influenza, pneumonia, pleurisy and empyema, have been cared for at our Convalescent Home.

Our general work, both medical and surgical, has been affected by changes in personnel of the workers. Following the problems of the influenza patients have come the problems of the discharged soldiers and sailors who come to us for medical care, some referred by the different war agencies and others coming of their own accord, who need to be referred to such agencies for service which it is their province to give. We have had, and continue to have, frequent relations regarding these men with the Red Cross Department of After Care, the Federal Board for Vocational Education, the United States Public Health Service, and the British Consulate and British Patriotic Fund, in the case of English and Canadian soldiers.

The knowledge gained through the Admission Desk and its worker has been invaluable in bringing to our attention these men who were patients in the wards. In one instance a British seaman, a Scotch boy from Glasgow who had just landed, was admitted to the medical ward very ill with pneumonia. When convalescent he was fitted out with clothing and sent to Ivycroft for a month, where he improved rapidly. He returned a very different person from the thin and pale boy who left the Hospital and anxious to get back to Scotland. Through the British Consulate, free passage home was secured for him and board at a Seaman's Mission until his ship sailed.

Ivycroft Farm, our Convalescent Home for Men, has proved its worth many times over during the year, having been

of special value in and following the influenza epidemic and in the case of soldiers, both discharged and in service. At one time a ward in the Hospital was devoted to the care of sick soldiers who were on duty at various points in the city, most of them motor transport men, many of whom were sent to Ivycroft for convalescence.

During the summer, when there was less need for convalescent care for cases of acute illness, we availed ourselves of the opportunity to keep for a prolonged period several boys suffering from cardiac conditions or chronic bone disease.

Other hospitals and outside agencies have availed themselves in increasing degree of the advantages of Ivycroft Farm. Patients have been referred to us not only through the Social Service departments of other hospitals, but through the Society for Organizing Charity, the Red Cross After Care Department, the Federal Board for Vocational Education, welfare departments of industrial establishments, churches and private doctors and individuals.

The following is a summary of the work of the department during the year:

Total number of patients for whom some service was rendered..	3,552
Cases carried over from previous year.....	625
New cases during the year.....	2,398
Reopened cases .....	529
Cases carried over to the following year.....	567

The new patients came to us from the following sources within and outside the hospital:

Medical Services, adults, including Department for Diseases of the Chest .....	1,100
Surgical Services, adults.....	393
Gynecological and Genito-Urinary Services.....	231
Children's Service .....	260
Ophthalmic, Nose and Throat and Aural Services.....	82
Other sources within the hospital.....	179
Other sources outside the hospital.....	153

A small part of our services to these patients included the following:

Visits made to and in the interest of patients.....	5,459
Referred to co-operative agencies, institutions and individuals...	1,898
Admitted to Tuberculosis Sanitoria.....	83
Convalescent care obtained for.....	365
Placed in other institutions or homes.....	321
Material aid given to.....	172

For acknowledgment of contributions made to Emergency Fund of the Social Service Department, see page 43.

We are grateful to Mrs. Simon Gratz for the Christmas tree with its furnishings of toys, fruit, decorations, etc., which gave happiness to the children connected with the Children's Clinic.

We also wish to make grateful acknowledgment to those who have contributed clothing, magazines and flowers and books for the Social Service library.

HELEN L. HILLARD,  
*Director of Social Work.*

# The Women's Auxiliary

MRS. ROBERT E. HARE, *Chairman.*

MRS. HOBART A. HARE, *Vice-Chairman.*

MRS. HORATIO GATES LLOYD, *Secretary.*

MRS. FRANK S. EVANS, *Treasurer.*

The Women's Auxiliary is divided into four general committees—Hospital, Maternity, Nurses' Home and Social Service.

## The Hospital Committee

MRS. ROBERT E. HARE, *Chairman.*

This committee through its sub-committees for public wards, private rooms, nursery and children's ward attend to the general welfare of the main hospital, and give personal attention to many details for the comfort of the patients.

## Sub-Committee on Public Wards

MRS. B. DOBSON ALTEMUS, *Chairman.*

MRS. WINFIELD S. ARTER,  
MRS. DANIEL BAUGH,  
MRS. GEORGE W. BOYD,  
MRS. EDWARD BLABON,  
MRS. WALTER D. BLABON,  
MRS. FRANKLIN BAKER, JR.,  
MRS. P. BROOKE BLAND,  
MRS. J. PRIESTLEY BUTTON,  
MRS. J. CHALMERS DACOSTA,  
MRS. HOWARD A. DAVIS,  
MRS. J. LESLIE DAVIS,  
MRS. FRANK S. EVANS,  
MISS ALICE GILPIN,  
MRS. WILLIAM E. GOODMAN, JR.,

MRS. HOBART A. HARE,

MRS. ROBERT E. HARE,  
MRS. MAHLON HUTCHINSON,  
MRS. ALBA B. JOHNSON,  
MRS. FRANK G. KENNEDY,  
MRS. E. J. KLOPP,  
MRS. D. BRADEN KYLE,  
MRS. CHARLES M. LEA,  
MRS. DAVID LEWIS,  
MRS. FIELDING O. LEWIS,  
MISS ANNA J. MAGEE,  
MRS. WILLIS F. MANGES,  
MRS. JOHN S. MUCKLE,  
MRS. J. RUTHERFORD McALLISTER,  
MRS. THOMAS McCRAE,  
MRS. EDWARD A. SCHMIDT,  
MRS. S. MACCUEN SMITH,  
MRS. JOSEPH W. WEAR,

MRS. ROLLIN H. WILBUR.

The patients in the wards have been supplied with clothing suitable for bed and convalescent purposes. All the wards, the hallways and the Hospital in general were decorated for the several holiday seasons.

The furniture on the roof garden was repainted and suitable plants furnished for decoration.

Through the Welfare Dances at the Ritz-Carlton the sum of \$1,000 was raised, part of which paid for new furniture and pink cushions in the sun parlor on the sixth floor and for glass table and bureau tops for all private rooms.

### **Sub-Committee on Private Rooms**

MRS. ROLLIN H. WILBUR, *Chairman.*

MRS. B. DOBSON ALTEMUS,

MRS. HOBART A. HARE,

MRS. MAHLON HUTCHINSON,

MRS. ROBERT E. HARE.

The private rooms have been crowded as never before in the history of the Hospital, many patients having to be turned away. The Committee has done some refurnishing, and hopes to have additional rooms for next year. The Diet Kitchen has been well run and there has been nothing but praise for the food and the dainty appearance of the trays.

### **Sub-Committee on the Children's Ward**

MRS. SIMON GRATZ, *Chairman.*

MRS. ROBERT E. HARE,

MRS. CHARLES M. LEA,

MRS. DANIEL BAUGH,

MISS ALICE GILPIN,

MRS. ROLLIN H. WILBUR,

MRS. ALBA B. JOHNSON,

MRS. EDWARD F. GRAHAM,

MISS ANNA J. MAGEE.

The work in the Children's Ward during the past year is almost a repetition of that done in former years. The ward is, and has always been, quite up to date in all its methods. The work of our Committee necessarily lies in helping wherever possible. As usual, all clothing and shoes worn by the children while with us have been supplied by the Committee. Ice cream was given daily for over three months. The children had a wonderful Christmas, with a Santa Claus, tree and quantities of toys. 135 Dispensary children were also made happy. They were given a tree, fruit and toys. Easter was made pleasant by gifts of fruit and flowers. Money, toys, flowers, etc., have been sent by friends and well-wishers of the children. Full mention of these will be found elsewhere in the Report.

MRS. D. L. HEBARD,

MRS. CHARLES E. COXE,

MRS. JAMES S. ROGERS,

MRS. J. C. DaCOSTA, JR.,

MRS. ALBERT H. ROSENGARTEN,

MRS. WARREN B. DAVIS,

MRS. W. FIELDING WILCOX,

MRS. JOHN H. GIBBON,

MRS. C. WENDELL WOODWARD.

## Annual Report of the Secretary of the Maternity Committee of the Women's Auxiliary of Jefferson College and Hospital

War conditions have considerably complicated the work of the Maternity. Two of the staff have been absent from duty, in the Navy, and, early in the Spring, Dr. William H. Wells, who was the first Resident Physician at the Maternity, died. These losses have been especially trying in the work of the Dispensary, where the Out-Patient Clinic could scarcely be kept up, from lack of medical aid.

The number of patients applying for admission, from May 1st, 1918, to May 1st, 1919, was 1,332; and our space was so limited that it was possible to admit of these only 305. The Visiting Nurse of the Maternity Department, Miss Pullen, during the past year made 2,031 calls, and Miss Ott and Miss Lingo, Visiting Nurses at the Dispensary, made 2,351 calls, a total of 4,382 calls.

The usual sum of \$30.00 was given to Miss Martin to use for the pleasure of the nurses who worked at the Maternity during the summer, and the usual Christmas money was given to Miss Martin for the nurses' Christmas and that of the patients; and the Hospital provided a generous Christmas dinner.

The epidemic of influenza was severe among the Maternity nurses and the patients; one nurse died and a number of the patients. It was necessary to set aside one ward for the ex-

clusive use of influenza and pneumonia patients. The operative work of the Maternity was limited so far as possible.

The Hospital Committee of the Board of Trustees provided for the usual painting and papering at the Maternity during the summer.

To meet the many demands upon our space, the Hospital Committee of the Board of Trustees has rented the adjacent house, No. 226 South Seventh Street, and its owners have put in new plumbing, and the Hospital Committee of the Jefferson Trustees has done sufficient papering and painting to make the house neat and attractive. By the terms of the lease, only waiting patients can be kept in this building; but it will give us eleven additional beds for patients, suitable sitting and dining rooms for the nurses, better bedrooms for the nurses, and will greatly increase the comfort and efficiency of the Institution.

At the Wharton Street Dispensary it was found necessary to make changes in the House Staff. Miss Ott, the Visiting Nurse, retired, to take up other work, and Mrs. Reed, the Housekeeper, also obtained another position. With the help of the Hospital Committee of the Trustees, the Dispensary building has been renovated. New furniture has been purchased and the Dispensary made neat and comfortable for its work. Miss Lingo is in charge, and the Housekeeper is under her orders.

With the return of Dr. McCullough and Dr. Shumann from naval duty, the Dispensary service has been re-established, and the work is going on successfully. The Dispensary work has never been abandoned; but, owing to war and other conditions, it had reached a point where it was necessary either to abandon the work or to make radical changes.

We are most grateful to the Needle Work Guild for the 198 articles of clothing, and wish also to thank those who have contributed clothing to be distributed by the Visiting Nurse, who frequently discovers desperately needy families.

During the winter months the Maternity at times was more overcrowded than any previous occasion in its history.

A considerable number of Red Cross cases, wives of soldiers, was sent to us. There were more than the usual number of complicated confinements. Thanks to the efficiency of Miss Martin and her staff of nurses, the medical and surgical results obtained have been good. With the limited space and facilities, these results are a striking testimonial to their efficiency.

(Signed) MARY B. CORYELL,  
*Secretary.*

### **Nurses' Home Committee**

### **Report of the Nurses' Home Committee Jefferson Hospital Women's Auxillary**

The Nurses' Home Committee of the Jefferson Hospital Women's Auxillary submits the following report:

On May 20th we had our Commencement. The graduating class consisted of 25 members. We had our usual donation of flowers, which made the rooms attractive, and our refreshments consisted of lemonade and cake. Each nurse was given four invitations. (Owing to the excessive price of stationery, it was deemed advisable to eliminate the usual number.) The refreshments amounted to \$27.

The nurses raised \$111 for chairs, which were greatly needed.

During the summer the Committee was asked to recover the couches in the nurses' rooms, which was done at a cost of \$80.85.

During the epidemic we had many sick nurses. Through the generosity of Mrs. Hebard, 20 nurses were sent to Atlantic City to convalesce.

We also had one nurse who was obliged to spend eight weeks at White Haven. We had three donations toward this expense—two weeks from the Auxiliary, one from Miss Magee, and one week from Mrs. Lloyd. The remaining weeks were paid for by the Committee. This nurse has improved to the extent of being able to return to her work.

In order to show our appreciation of the work done by the nurses who were obliged to remain in this country, and did such excellent work during the influenza, the Committee arranged two entertainments a month. One each month Mrs. David Lewis kindly consented to be responsible for, the other being arranged by the Committee. We also want to thank Mrs. Coryell for one evening, on which she entertained.

The usual Christmas plans were carried out. Mrs. Hebard gave a dance on Christmas Eve for the nurses at the Hospital, as well as for those at the Chest and Maternity Hospital. She also invited 100 soldiers, sailors and marines. It was a great success. The three nurses who were obliged to remain on duty were given tickets to the theatre for Christmas afternoon, and a donation of money was sent to the nurses in the Unit for Christmas.

The usual magazines were subscribed to for the year.

This Committee sent to the Chest Hospital a large reading lamp and a table for the living-room.

At Easter both Hospitals were supplied with Easter flowers.

It is with great pleasure we have to announce two more members for the Committee, Mrs. John Fisher and Mrs. David Lewis.

## Report of Social Service Committee of the Women's Auxiliary

MRS. FRANKLIN BAKER, JR.,	MRS. QUINCY A. GILLMORE,
MRS. PHILIPPUS W. MILLER,	MRS. J. PARSONS SCHAEFFER,
MRS. EDWIN E. GRAHAM,	MISS OLIVE PARDEE,
MRS. HOLLISTER STURGES,	MRS. JAMES FORNEY,
MRS. JOHN CHALMERS DaCOSTA,	MRS. WILLIAM H. GREEN,
MRS. DAVID LEWIS,	MRS. JAMES OAKFORD,
MISS ANNA J. MAGEE,	MRS. D. G. METHENY,
MISS ALICE GILPIN,	MRS. CLARENCE H. GEIST,
MISS ANNE HINCHMAN,	MISS LILA T. FISHER,
MRS. FRANK G. KENNEDY, JR.,	MRS. JOSEPH W. WEAR,
MRS. EDWARD A. SCHMIDT,	MRS. JOSEPH B. McCALL,
MRS. WALTER BRYANT,	MRS. GEORGE SNOWDEN,
MISS MARY E. CONVERSE,	MRS. ROBERT J. HUGHES,
MRS. J. RUTHERFORD McALLISTER,	MRS. ROBERT CREGAR,
MRS. F. X. DERCUM,	MRS. HENRY K. MOHLER,
MRS. J. LESLIE DAVIS,	MRS. ROBERT HOOPER,
MRS. JOHN F. MUCKLE,	MISS MABEL BUZBY,
MISS GERTRUDE GOFF,	

MRS. ALBA B. JOHNSON, *Chairman.*

It is no longer necessary to point out the importance of Hospital Social Service work, but this year we must emphasize the great value of the work in crises such as we passed through during last winter. The withdrawal of so many doctors from the Hospital Staff in order to enter the service of the Government made more evident the value of the Social Service workers as aids in the Dispensary. During the influenza epidemic their work was untiring, as some not only worked by day, but nursed by night.

Two of the staff, Miss Kane and Miss Wright, have returned after service as army nurses and have taken up their work in the Medical Clinic and Children's Dispensary, Mrs. Pasque and Miss Murphy having resigned.

The Committee provided for the salary of an extra clerical worker who served during July, August and September. The salary of a half-time clerical worker at 238 Pine Street is shared by the Trustees and our Committee, as the keeping of records in that department is very heavy.

Through the generosity of a member of the Committee who paid all expenses connected with the entertainment, the sum of \$800 was raised for the Social Service Department by a musicale held in Broad Street Theatre.

Since it had been decided that the Auxiliary as a whole would not hold a Rummage Sale this year, the Social Service Committee, at a meeting held in November, voted in favor of undertaking such a sale in April. The sum of \$3,734.94 was cleared at this sale. We wish here to express our appreciation of the aid given to us by certain members of other committees of the Auxiliary who were untiring in their efforts.

Ivycroft Farm has cared for 266 men during the two years of its existence. Seven hospitals and various other agencies have sent men to Ivycroft. A number of soldiers have been placed under our care from time to time.

The value of occupational therapy, practised at Ivycroft from the start, has grown more and more apparent. Our industries are constantly increasing, the sale of the products about covering the cost of materials. The average number of patients during the entire winter has been 10.5, our capacity being only 13.

We have followed Dr. Brush's advice and treated many cardiac cases, such cases showing marked improvement after a stay at the Farm.

The illness of the Chairman of the Committee, Mrs. Button, has been a source of great regret both to those who have worked with her and to the men at Ivycroft, where her kindly interest, wise counsel and generous help have been of inestimable value.

We again wish to call attention to the fact that there is a fine large house at Ivycroft Farm, now unoccupied, which could be made available for broadening the work, could the

"Ivy-Rose" Convalescent Home for Men.

Committee be assured of the financial support necessary for its maintenance.

The Clothes Closet Committee reports that the demand for clothes was not so great this year because of the mild weather; nevertheless 85 persons were supplied with clothing, 421 articles having been given out. The Committee would be very grateful for donations of new or worn clothing of any kind. The special need now is for wraps for children in the Children's Ward, who are taken for automobile rides or other outings.

The Committee on the Department of Diseases of the Throat and Chest report that the sum of \$202.29 has been spent for milk during the past year, from three to five patients monthly receiving milk. Many incipient cases of tuberculosis are checked by this means.

LEAH GOFF JOHNSON,  
*Chairman.*

*Treasurer.*

## **The Training School for Nurses**

The Training School for Nurses has been in successful operation for twenty-seven years; at no time in its history has the school been more prosperous. The entire organization is under the direction of the Hospital Committee, to which, through the Medical Director, all matters of discipline and curriculum are brought for final consideration. Recognizing that proper teaching of the science and art of nursing can be best accomplished under the supervision of medical men, it has been provided that the course of study be formulated and directed by the Hospital Staff. For this purpose there is appointed annually a Committee of the Staff, known as the Training School Committee, consisting of six members, who outline the curriculum and designate the teachers of the separate branches.

The Directress of the Training School is the executive having immediate charge of the work done by the pupils; she supervises the practical instruction in wards, operating rooms, diet kitchen and in classes, for which purpose she is supplied adequate assistance. The Nurses' Home is under her immediate supervision, as is also the home life of the pupils in training and all her subordinates.

### **Courses of Study**

The course of study is three years, during which time the Directress of the Training School assigns each pupil, for definite periods, to the various wards and services. Such practical training under skilled supervisors best applies the science and most adequately teaches the art. The course of study is modified and improved year by year, always with the idea of betterment. Like all other professional schools, changes are necessary for improvement; to stand still is retrogression. Each year new subjects are introduced or old ones taught in new and, it is believed, better ways. The curriculum embraces a probation term of three months, a junior term of nine months, an intermediate term of twelve months, and a senior

term of twelve months. Practical work is given each nurse in the following:\*

Men's and Women's Medical Wards.....	7	Months
Men's and Women's Surgical Wards.....	7	"
Children's Ward .....	4	"
Roof-garden and special details.....	1	"
Private Corridors .....	4	"
Accident Ward and Dispensaries.....	2	"
Operating Rooms .....	3	"
Maternity Department .....	3	"
Department for Diseases of the Chest.....	3	"
Diet Kitchen .....	2	"

Approximately six months of night duty are given in two or more terms, rarely exceeding three months each, distributed in the above services.

## First Year

### INTRODUCTORY LECTURE

Preliminary Course, 1 Month

THE MEDICAL DIRECTOR. The Duties, Obligations, and Responsibilities of the Trained Nurse.

### BACTERIOLOGY AND HYGIENE

PROF. R. C. ROSENBERGER. Twelve Lectures. General distribution of Bacteria, how bacteria produces diseases. Epidemics of Diseases due to dissemination by Contact, Water, Milk, Carriers, Insects. Methods of obtaining Antitoxin and other sera, role of Vaccines. Disinfection by steam, hot air and chemicals. Dangers of dusts in various occupations.

### NURSING IN TUBERCULOSIS

Three Classes

ELMER H. FUNK, M.D. Tuberculosis—Frequency of infection and mortality, predisposing factors, methods of spread of the disease. The Social problem and the Nurse's position in the anti-tuberculosis crusade. The manifestations of the disease—the special knowledge which a nurse should have to successfully attend tuberculous patients. The temperature, pulse, etc. The care of the patient—rest—fresh air—properly prepared diet. The principles underlying and methods of application of these measures. Prophylaxis. Methods of disposal of sputum, excreta and of disinfection of articles in contact with patient. Nursing in emergencies such as Pulmonary Hemorrhage, etc. The preparation for paracentesis of the Chest.

---

\*Subject to change without notice. The management at all times reserves the right to make such changes as may seem wise without notice to, or consent of, the pupil.

## **ORTHOPEDIC SURGERY**

PROF. J. TORRANCE RUGH. Care of Feet and Correct Walking.

## **PRACTICAL NURSING**

**Fifty Classes**

## **DIETETICS**

**Four Demonstrations. Twelve Classes**

Responsibility of the nurse in ordering, preparing and serving nourishments and regular diets. Measuring, combining ingredients. Preparation of eggs, of beverages, of nourishments. General rules for diet kitchen work. Care of diet kitchen equipment. Care of trays, linen, china, glass and silver ware. Setting and serving trays. Food. Composition, classification and caloric value. Protein, fat, carbohydrate, mineral matter, water. Methods employed in cooking food. Meat—Demonstration of different cuts. Menus for patients on regular and special diets, including color schemes. Metabolic diets.

## **MASSAGE**

MARY G. CORBIN. Twenty Demonstrations.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Second Year**

## **GYNECOLOGY**

PROF. E. E. MONTGOMERY, M.D. Consequences and Sequelæ following Abdominal Operation.

PROF. JOHN M. FISHER, M.D. Two Lectures. Abdominal Operations.  
P. BROOKE BLAND, M.D. Medical Gynecological Nursing. Nursing in Vaginal Operations.

ALFRED HEINEBERG, M.D. Two Lectures. Anatomy of Pelvic Organs.

## **DISEASES OF THE EYE**

PROF. WILLIAM M. SWEET, M.D. Anatomy of the Eye. Nursing in Diseases of the Eye.

## **DISEASES OF CHILDREN**

PROF. E. E. GRAHAM, M.D. Feeding of Infants and Children.

JULIUS BLECHSCHMIDT, M.D. Hygiene of the Nursery.

RALPH ENGLE, M.D. Nursing in Gastro-Intestinal and Respiratory Diseases.

W. H. JOHNSTON, M.D. Nursing in Fevers and Contagious Diseases.

## **SURGERY**

DUNCAN L. DESPARD, M.D. Fractures, Dislocations, Sprains, Anesthesia, Splints.

## **SURGICAL NURSING**

Eight Demonstrations. Preparation of patient for Operation. Preparation of patient for Anesthesia. Instruments (Metal, Rubber, Silk, Glass, Illuminated), Preparation, Sterilization, Use and Care. Sterilizers and how to use them. Preparation of Special Binders, Bandages, Plaster Dressings, etc. Padding of Splints.

## **BANDAGING**

ERNEST MAIER, M.D. Twelve Demonstrations.

## **ANATOMY AND PHYSIOLOGY**

E. J. KLOPP, M.D. Twenty-five Lectures. Anatomy and Physiology of the Human Body.

## **MATERIA MEDICA**

LEIGHTON F. APPLEMAN, M.D. Drugs: Their Proper Names, Sources and Active Principles. Pharmaceutical Preparation of Drugs with their Definition and General Uses. Dosage and Methods of Administering Drugs. Physiological Actions of Drugs. Poisons; the Treatment of Poisoning. Counter Irritation. Hydrotherapy. Antitoxins; their Uses. Vaccines and their Applications. Review. Materia Medica. Twelve Classes.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Third Year**

## **SURGICAL NURSING**

PROF. J. CHALMERS DAcOSTA, M.D. Two Lectures. Instruments and their uses.

WARREN B. DAVIS, M.D. Five Lectures. Hemorrhage, Wounds and Burns. Shock, Treatment of Shock. Bites of Dogs, Insects and Snakes. Drowning. Asphyxia. First Aid to the Injured.

## **SURGICAL AND OPERATING ROOM TECHNIC**

WILLIAM H. SPENCER, M.D. Fifteen Classes.

## **OBSTETRIC NURSING**

PROF. EDWARD P. DAVIS, M.D. Obstetric Nursing in Private Houses; Complications of Pregnancy, Abortion, Eclampsia, Hemorrhage. Signs and Symptoms of Labor; Preparation of the Patient and her Room; the duties of the Nurse during Spontaneous Labor.

COLLIN FOULKROD, M.D. Obstetrics, Antisepsis and Asepsis; Signs, Symptoms and Treatment of Post-Partum Hemorrhage. Duties of the Nurse during Obstetric Operations; the Sterilization of Instruments, Dressings, Field of Operation, Operating Tables, the Posture of the Patient; the Anesthetist; Shock and Hemorrhage.

GEORGE A. ULRICH, M.D. The Normal Puerperal State. Complications arising during the Puerperal State for Mother and Child. The Infant, its Food and Dress. Bathing, Exercise, Development and Weaning.

## **OBSTETRIC NURSING**

### **Five Classes**

## **NURSING IN GENITO-URINARY DISEASES**

PROF. HIRAM R. LOUX, M.D. Nursing in Venereal Diseases; Methods to be adopted in Order to Prevent Contagion. Urethral Instruments, Care, sterilization and Uses. Retention of Urine; Causes, Symptoms and Treatment. Uremia; Causes, Symptoms and Treatment. Hematuria: Causes, Treatment. Catheterism.

E. D. FUNK, M.D. Normal Urine. Deviations from the normal to be noted by the Nurse. Proper Method for collecting samples for Examination. Simple Emergency tests.

## **FEVER NURSING**

FREDERICK J. KALTEYER, M.D. Seven Lectures.

ROSS V. PATTERSON, M.D. Cardiac and Pulmonary Diseases.

## **MEDICAL NURSING**

### **Sixteen Classes**

## **DISEASES OF THE THROAT**

PROF. CHEVALIER JACKSON. Surgical Proceedings involving Larynx. Nursing care of Tracheotomy cases, etc.

F. O. LEWIS, M.D. Care of accident cases and of surgical proceedings involving Nose and Throat.

## **DISEASES OF THE EAR**

PROF. S. MACCUEN SMITH, M.D. Anatomy of the Ear.

A. SPENCER KAUFMAN, M.D. Diseases of Middle Ear and Mastoid arising from acute infective diseases.

## **DISEASES OF THE SKIN**

A. STRICKLER, M.D. Anatomy of the Skin. Suggestions on the care of Diseases of the Skin.

## **DISEASES OF THE NERVOUS SYSTEM**

S. F. GILPIN, M.D. Nursing in Organic Nervous Diseases. Nursing in Insanity. Nursing in Functional Nervous Diseases.

## DISEASES OF JOINTS AND APPLICATION OF PLASTER BANDAGES

ARTHUR J. DAVIDSON, M.D. Two Lectures.

Frequent recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

During the year just ended 24 nurses completed the course, graduating at Commencement held on May 22d. The number of graduates is now 480.

During the year 542 inquiries were received and 305 applications were filed. The school census follows:

Pupil nurses and probationers, June 1, 1918.....	130
Graduated .....	24
Resigned and rejected.....	24
Admitted .....	39
Pupil nurses and probationers, May 31, 1919.....	121

### Nurses' Home

The Nurses' Home, in addition to the dormitories, provides recitation, recreation, reading and reception rooms. Under proper regulations, nurses are permitted to see and entertain their friends, enjoy social evenings, and every effort is made to secure something of home life and the pleasures of congenial companionship. A Committee of the Women's Auxiliary regularly visits the Home, provides comforts, and looks after the general welfare of the pupils. The social features of last Commencement were entirely under the direction of the Nurses' Home Committee of the Women's Auxiliary, to whom all were indebted for a most enjoyable occasion.

A Register of the Graduates of the Nurses' Training School is kept in the office of the Directress, and nurses are supplied on application by telephone, mail or in person. Alumnae are requested to keep the Directress informed as to their addresses, and whether engaged in or desiring private or institutional nursing or administrative work.

Applicants for admission to the Training School should call upon or address the Directress of the Training School for Nurses, Jefferson Hospital.

#### REAL ESTATE TRUST BUILDING,

PHILADELPHIA, September 8, 1919.

We hereby certify that we have audited and examined the books and accounts of the Jefferson Hospital for its fiscal year ended May 31, 1919, and found them to be correct.

The operations of the year are correctly summarized in the report herewith submitted.

JOHN HEINS & Co.,  
*Accountants and Auditors.*

## Yearly Comparisons

Year	No. of Patients Admitted to Hospital	Patient Days Treatment	Cost per Diem Provisions All Persons Supported	Cost per Diem Ward Patients

 Women's Auxiliary, 12 pr. sandals, 4 dozen shirts for Children's Ward, 12 pr. stockings for Children's Ward, 135 garments for Children's Ward, flowers for Nurses' Home, flowers for wards.

## **Gifts by Will**

In the State of Pennsylvania, testamentary provision for a charitable institution must be by a will made at least thirty days prior to the decease of the testator. The signature of the testator must be attested by at least two subscribing witnesses, who should sign their names as witnesses thereto in the presence of the testator and of each other.

None of these witnesses should be interested in any manner in the institution intended to be benefited, as manager, trustee, officer, employee, beneficiary or otherwise.

The testator may either bequeath personal property or devise real estate to the institution generally, or may create an endowment whereby only the income therefrom shall be used for its benefit.

The following forms are suggested for a legacy of personal property and a devise of real estate, where it is intended that the same shall be devoted to the use of the Hospital generally without restriction:

### **FORM OF BEQUEST OF PERSONAL ESTATE**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, for the maintenance, extension or betterment of its Hospital Department, the sum of..... dollars.
